

AMBERIF Spring 2026 – International Fair of Amber and Jewellery Fair

Gdańsk once again the world capital of amber and design

From 26 to 28 March 2026, the AMBEREXPO Exhibition and Congress Centre in Gdańsk will host the next edition of AMBERIF - International Fair of Amber and Jewellery – one of the most important industry events in Europe dedicated to amber, jewellery and contemporary design.

AMBERIF is a meeting place for professionals: manufacturers, designers, wholesalers, gallery owners, collectors and representatives of trade media. For many years, the fair has served as a platform for knowledge exchange, presentations of premiere collections and the development of international business relationships.

AMBERIF – a meeting space for the industry

The previous edition of AMBERIF Spring attracted 2,300 trade visitors from 38 countries, while 205 exhibitors from 12 countries presented their offers, confirming the international character and significance of the event. Although exhibitor registration for the 2026 edition is still ongoing, the fair's content and conference programme is already being intensively developed.

One of its key highlights will be a seminar organised by the International Amber Association – a long-standing AMBERIF partner, which will celebrate its 30th anniversary in 2026. The event will provide an opportunity to review the association's achievements and discuss challenges and future directions for the amber market.

A new feature of this edition will be the AMBERIF Metal Games – a competition consisting of three spectacular contests based on rolling and precision cutting of precious metals. On Friday, participants will be able to compete as teams, and on Saturday, individually. In addition, by taking part in the competition, participants will support a hospice foundation. This is the only industry competition of its kind taking place at a jewelry fair, which will allow for a bit of entertainment between business talks and serious meetings with contractors.

Competitions and design promotion

As every year, the winner of the prestigious AMBERIF Selection competition will be chosen from among the exhibitors.

At the same time, submissions are open for the international AMBERIF Design Award competition, which broke all records in the previous edition, receiving 365 entries from 34 countries. The theme of this year's edition is "The Magic of Matter", and the submission deadline is 8 February 2026.

AMBER Vibes – amber on the runway

After the close of the first day of the fair, a special accompanying event will take place – the AMBER Vibes fashion and amber show. The show will present works by young designers from the School of Image Creation in Gdańsk, as well as artists who work with amber on a daily basis and are also AMBERIF exhibitors.

The artistic director of the show is Lidia Popiel – photographer, former model and long-time ambassador of amber.

AMBER Vibes is the only event open to the general public outside the trade audience – amber and fashion enthusiasts. Tickets will be available via eBilet. It should be noted that although AMBER

Vibes accompanies AMBERIF, it is not part of the fair itself – a ticket to the show does not grant access to the fair, and AMBERIF registration does not automatically include entry to the show.

AMBERIF 2026 promises to be a multidimensional event, combining business, knowledge, design and art, as well as dialogue between tradition and modern approaches to amber. The organisers invite professionals and enthusiasts alike to Gdańsk to become part of an international community focused around one of the most fascinating natural materials.
